Studio Summary

PT Autotube Crew Studio is based in Jakarta, Indonesia and provides creative production support across CGI, 3D animation, VFX, visualization and digital content. We can discuss direct projects, agency collaborations, production partnerships and specialist support.

Core Capabilities

CGI Production Digital assets, environments, scenes, materials, lighting and rendering.	**3D Animation** Product, environment and cinematic animation for visual storytelling.
Visual Effects Compositing, CG integration, cleanup and digital effects as scoped.	**Motion Graphics** Animated graphics, titles, promotional visuals and digital content.
Product Visualization 3D product imagery and animation for presentations and marketing.	**Architectural Visualization** Interior, exterior and environment visualization for project communication.
Environment Creation Digital environments and sets for animation and cinematic production.	**Video Production** Creative development, filming, editing and finishing where included in scope.

Production Approach

- Review the brief, references, audience and intended use.
- Define deliverables, production stages, review points and schedule.
- Develop the agreed creative and technical work.
- Review, refine and prepare approved outputs for delivery.

Collaboration Models

Direct Project Work directly with a brand or organization on a defined project brief.	**Agency Support** Provide creative production support alongside an agency team.
Production Partnership Coordinate with a production company or creative team on scoped work.	**Specialist Support** Contribute selected CGI, 3D, VFX or visualization tasks to an existing pipeline.

Project Information to Prepare

- Project objectives, audience and creative references
- Expected deliverables, formats and technical requirements
- Timeline, review needs and budget range, if defined
